PUBLIC NEWS RELEASE

As COVID-19 (Coronavirus) has continued to spread throughout our communities, the firefighters and administrative staff of the Stanislaus Consolidated Fire Protection District, continue to serve day in and day out. In order to protect our families and yours, and to limit possible exposures, we have made the difficult decision to close our Fire Stations to the public for non-emergency business. This includes having to cancel all station tours, public education sessions, and community events as we do our part to limit the potential for exposure. Our administrative offices will continue to be open with limited access, which will be subject to change to ensure the safety of our staff and the community.

Please, for your safety and wellbeing, continue to follow the guidance of the CDC: wash your hand with soap and water often and use hand sanitizer when that is not available. Avoid touching your eyes, nose, and mouth with unwashed hands, and adhere to social distancing. If you call 911 and are experiencing flu-like symptoms, cough, fever, or difficulty breathing please let the call taker know so our first responders can take proper precautions before making entry into the residence/business.

Proudly I say, Thank You to the Firefighters and Administrative Staff of the Stanislaus Consolidated Fire Protection District for selflessly serving their communities during these stressful times, and to their families, thank you for supporting them and our communities!

A handwritten signature in blue ink, appearing to read 'Michael W. Whorton'.

Michael W. Whorton, Fire Chief
